

**1910...**

**The collaborative artworks of Jamie Lynn and Schoph...two friends on a creative journey together, bonded through their love of art, music and snowboarding.**

**Finding common ground as like-minded individuals, the two joined forces to create art, simply for the sake of creating art.**

**Realizing that this was something special, they wanted to share it with others and so 1910 was born.**

The whole is greater than the sum of its parts. This is why we do it. This is what we feel and believe in and this is our opportunity to share this with you. Thank you for supporting 1910!

*Jamie*

Every time I make art, I enjoy every moment of it, I'm fortunate that I've always been able to find that fire. I believe art can bring people together and collaboration is key to progression. 1910 is a brotherhood in art, to share and inspire, the past, present and future are all embraced.

*Schoph*
