# About Us

## HOWL SUPPLY

Winter accessories by snowboarders for snowboarders. Founded in 2012 by professional snowboarders Darrell Mathes and Nima Jalali, HOWL creates pro level quality gloves and accessories for everyone. All of our products are inspired by our team of riders, blending durability and function with unique design. For ten years HOWL has delivered product built to withstand all conditions and environments, carefully designed with on - trend colors, fabrics and materials. Rider owned, rider driven, HOWL gives back to the winter sports community by donating gear and a portion of our sales to The Dillon Ojo Foundation. HOWL. Stronger than the alternative method.

## ABOUT OUR OUTERWEAR

The inaugural HOWL outerwear line simultaneously elevates appealing design without sacrificing technical requirements. We are proud to present a complete collection of jackets and pants built upon the same foundational values that have always guided our design process. With a vast catalog of popular gloves and accessories over the years, the stage has been set for HOWL to continue to create products that look good and feel better. We set to reimagine timeless silhouettes with modern twists, seeking to create outerwear that people want to wear regardless of the occasion. Rigorously tested by our riders in a multitude of environments - this is just the beginning.

# Vaportek

Featuring a cutting-edge patent-pending technology, VAPOR TEK Pro is designed to perform for the most serious athletes in the most extreme conditions. The 100% ePFT membrane is over 28% more breathable than that of its predecessor, VAPOR TEK Pro Shell. The enhanced moisture management makes it ideal for pronounced work-rest cycles, like intense climbing pitches coupled with chilly belays. To ensure expedition-worthy durability and abrasion-resistance, all garments engineered with VAPOR TEK are required to use heavier face fabrics (40+ denier), and always feature a three-layer construction.

# Sexton (Glove & Mitt)

Introducing an updated look to the Sexton mitt as well and now offering the design as a glove. Designed with Joe Sexton, his mitt has been in demand since it debuted. With updated technical features like the grip tape palm lamination, 10K/10K waterproofing and goat and suede leather make this an updated classic.

# Down (Mitt)

In memory of Dillon Ojo, this design was created to commemorate him. He truly loved the quality of down to keep him warm in the streets of Montreal or on any mountain. On the wrist cuff it reads “Forever Smiling” as a reminder about his foundation. Proceeds of this glove go directly to the @dillonojolifelinefoundation.
