

stay  
wild!

Okay.

AIRBLASTER

## RIGHT THERE.

Do you see it? Whether pointing out that spot where you just put down a significant faceplant, or that most magical spot where you might be able to launch from... there to there? Anything is possible with the right set of springs, experience, equipment, and landing gear.

Happily we can help with the 'proper equipment' category:

Airblaster keeps you warm and dry.

The rest is up to you.

Creativity helps you do it right. Friends do too.

Make new friends? Bonus points.

Express your own style because nobody is the boss of you?

Let's go board together!

See you out there.

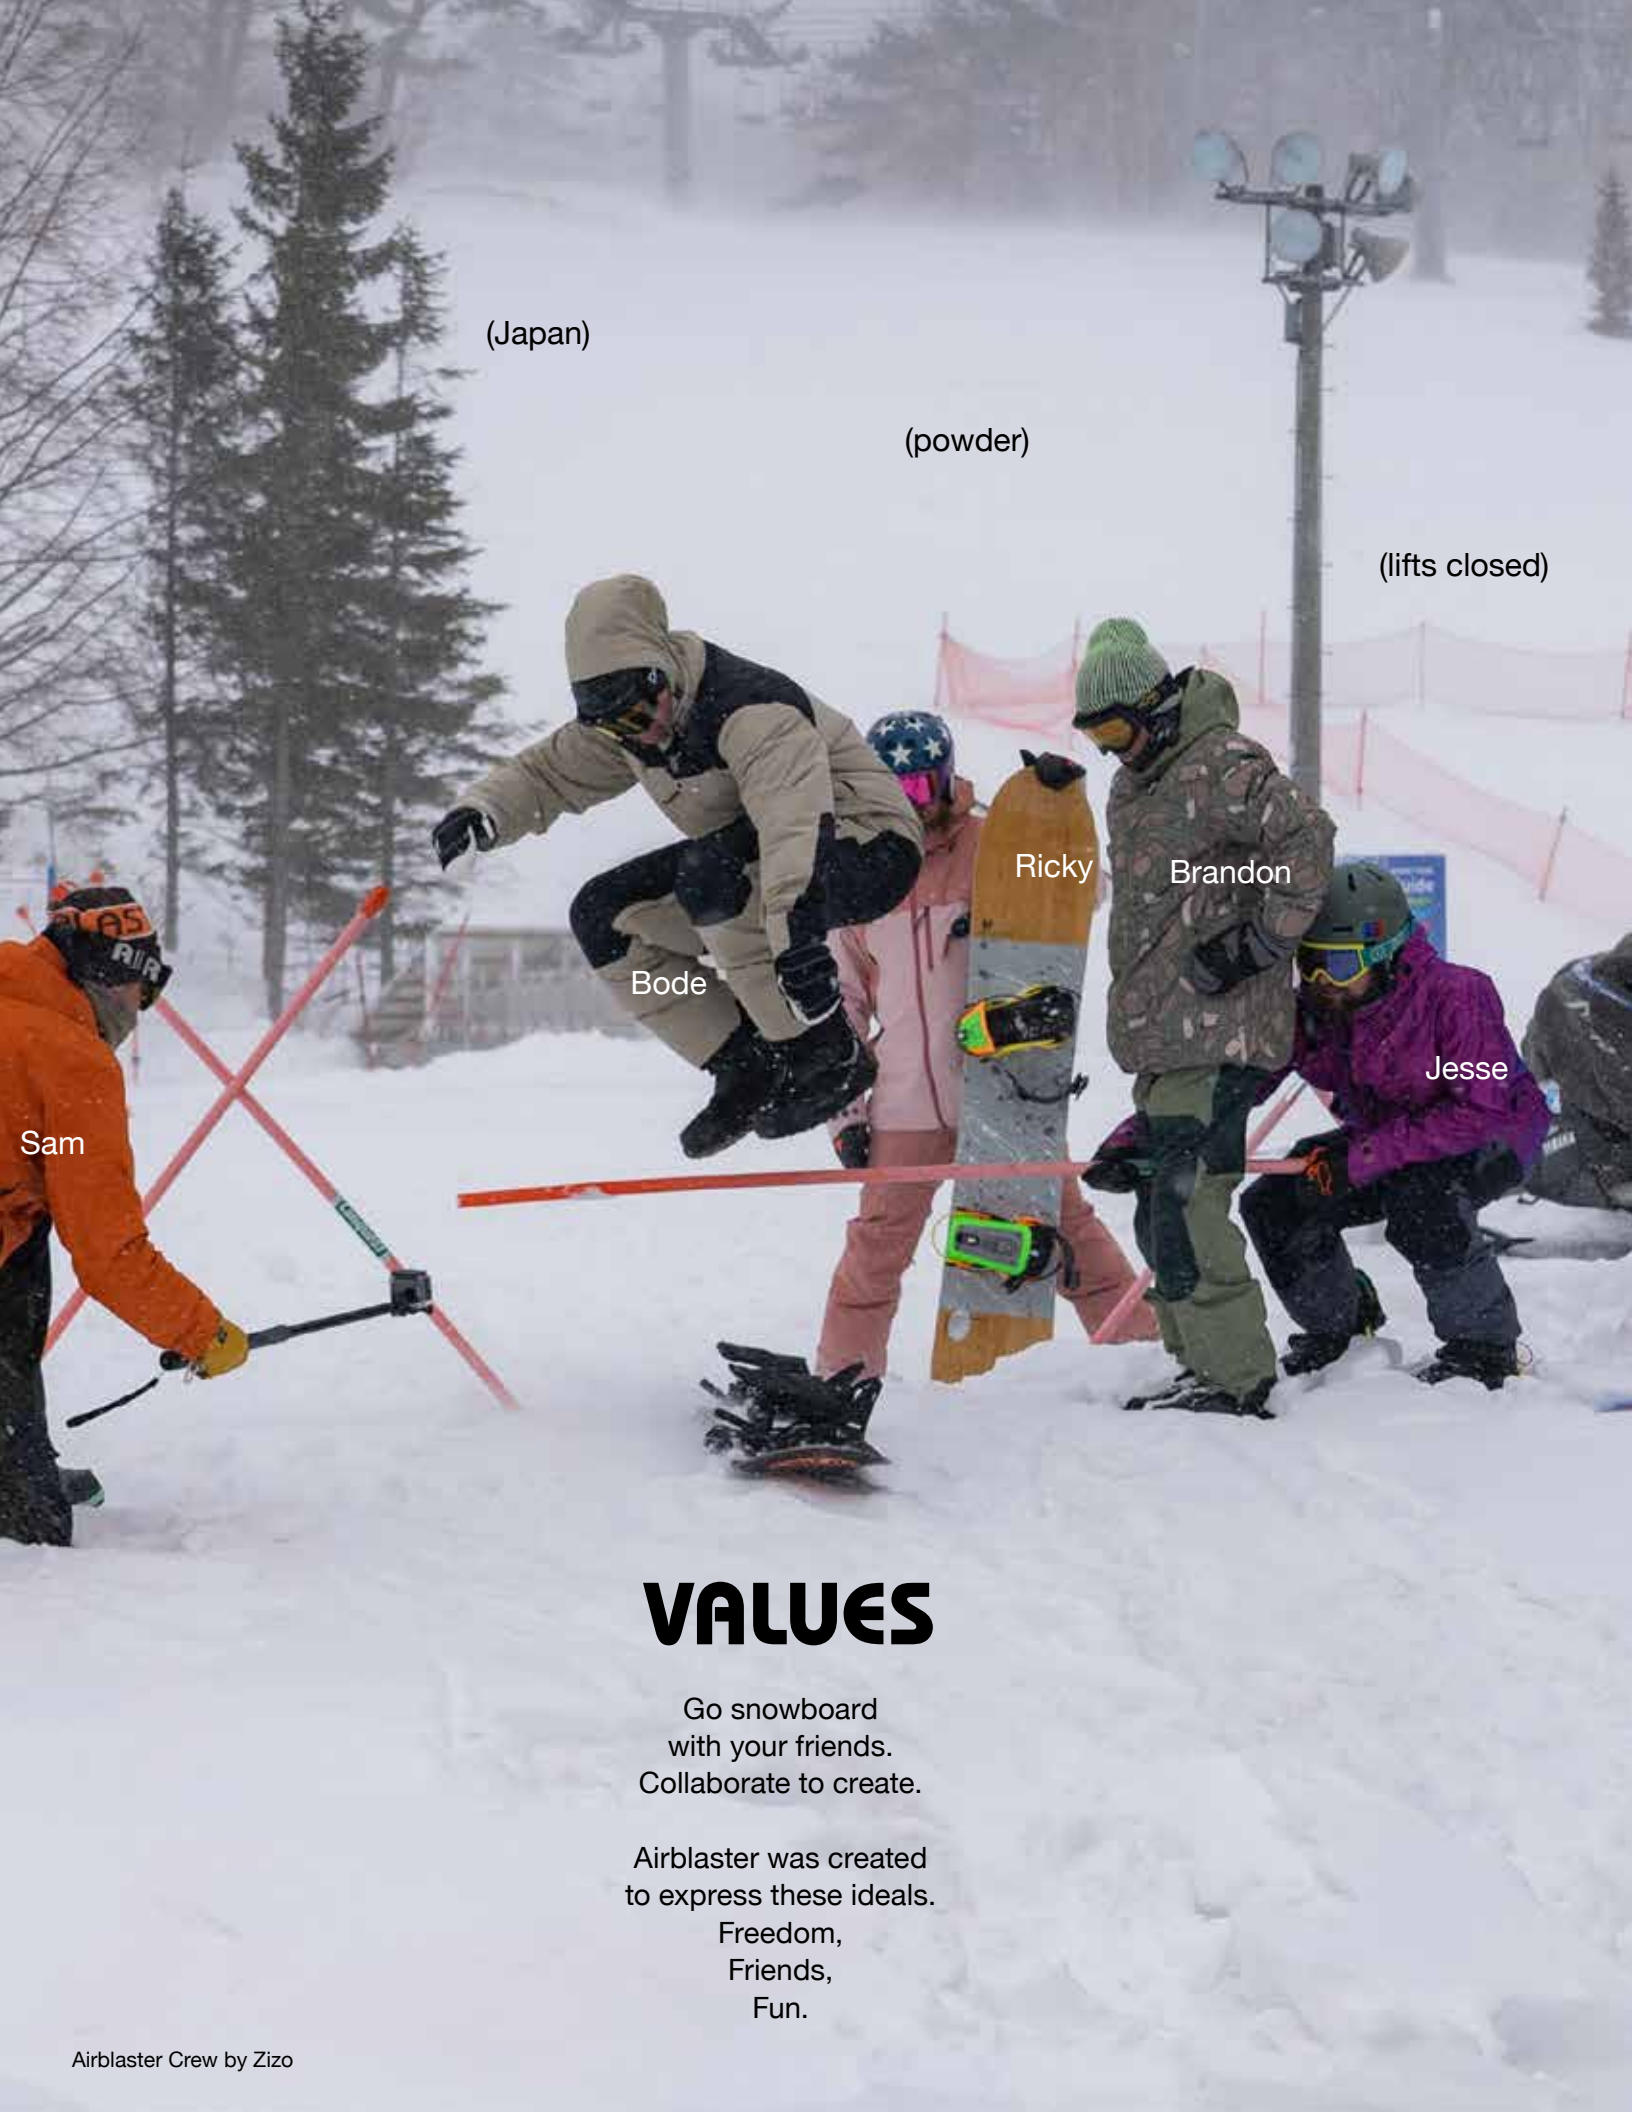

Stay Wild.

## VALUES

Go snowboard with your friends. Collaborate to create.

Airblaster was created to express these ideals.

Freedom,  
Friends,  
Fun.

# SUSTAINABILITY

If you want to have a significant 'eco-friendly' impact, stop buying new things. Quality used gear is readily available for most activities. When you purchase something new, compare your options closely, make a solid purchase, treat your gear well, then pass it along. In a sea of vague claims and green washing, let us explain specifically what we do to take the edge off:

Airblaster black taffeta--our highest use fabric--is 100% recycled poly or 100% solution dyed nylon.

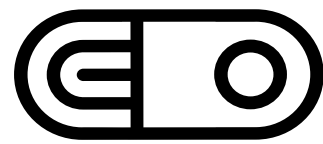

### RECYCLED OUTER FABRIC

Icon indicates main shell fabric has 92-100% recycled content  
All shell fabrics in BEAST and LANDFORM series are 100% recycled  
Recycled options available in all major categories, including base layer

### ECO FRIENDLY DWR

Airblaster uses exclusively PFC free DWR  
Icon denotes DWR as primary repellency for uncoated shell fabrics  
ECO DWR also used on all 10K, 15K, and 30K outerwear shell fabrics

# AIRBLASTER TEAM

These cats do what they want. Airblaster's original mantra—"we do whatever we want"—was a projection of freedom out into the world, and nobody projects more explosive creative freedom than the Airblaster Team! You probably already track their global freestyle movements on the world wide web of information, but if not, give them a follow.

## LAYERING SYSTEMS

Beyond technical + cute individual pieces, Airblaster garments function optimally together, creating the ultimate layering system to keep you warm and dry in extreme weather.

### ① **NINJA SUIT** BASE LAYER

Whether you're a long time fan of our original Ninja Suit® base layer onesies, or are looking to add some spice to your more traditional base layer game, all Airblaster base layers have four-way stretch, wicking function, plus 110% FUN factor.

### ② **LANDFORM** MID LAYER

Versatile in transition, Airblaster Landform styles span the spectrum from ascent-ready technical mid layers to couch-chilling everyday favorites. With a 20+ year history of technical outerwear, Airblaster delivers ultimate fit and function.

### ③ **AIRBLASTER** OUTERWEAR

Chance of powder in your forecast? We've got something for that. From the streets to the summit, Airblaster outerwear styles keep you warm and dry, so you can focus on freedom, progression, and good times with friends.

## WATERPROOF TECH GUIDE

# BEAST SUIT

Pillage powder like a Beast. The Airblaster Beast Suit takes powder protection to the ultimate level with 30K head-to-toe coverage, welded bar tacks, zonal stretch, and a convenient 350 degree hip zip for answering nature's call. One-piece coverage is seamlessly superior to any pants+jacket setup, especially considering those pesky gaps that emerge when cartwheeling ass-over-teakettle in separates. One-piece = no gaps. Snorkel not included.

# TRENCHOVER JACKET

Have you savored the flavor of life in a legendary Airblaster Trenchover? If not, you've been missing out! And if so, we've got some spicy updates to kick up the heat to the next level. Featuring full AB Trench DNA, we've girthed up the fit for improved Mid Baggy blouse-ability. Supple glamor cloth fabric at the arms and lower body improves freedom of movement. Durable stretch canvas at shoulders is topped off by a savory stripe at mid body for shifty-era vintage vibes.

SHARK OXBLOOD MIST BUD COBALT FLAMES HOT WAVE

# ELASTIC BOSS PANT

The very first outerwear pants that Airblaster designed, in around 2004, had elastic bottoms. We brought samples to the trade show. People said, "Ha-ha. ... Seriously, though. ... They're going to have 'normal' bottoms, right?" And we were like, "Duh. Yes. Like, that elastic is just a joke, obviously." and we changed them. But it wasn't a joke. We were crying. But now we laugh. Teehee. New for 24/25, updated Mid Baggy fit bangs harder, without going overboard.

# REVERT JACKET

Back from the late 90's, with no price change. Thrift store jackets and hoodies are cool, but often, winter conditions just demand a waterproof jacket with seam sealing. A hood can come in handy too, especially one that cinches easily to seal out wet snow and keep heat in. If you need a super tech jacket with futuristic gadgetry and features, we make those. But if you prefer simple, bomb proof protection in a legitimate old school package, go Revert.

BLACK RESIN DARK NAVY CHOCOLATE MAGIC

# REVERT PANT

These are waterproof baggy jeans, the staple of late 90's snowboarding. They have pleats, belt loops, adjustable waist cinch, 4 secure pockets, and even leg gaiters to keep out the snow. The high denier fabric is durable with a 10,000mm waterproof rating and critical seam taping. The cut is Baggy Plus some, with ample room to move for things like shifties, reverts, and even shifty-reverts. New for 24/25 is slightly baggier fit and option to cinch cuff.

YKK #8 Vislon® 2-way zipper at center front

Suede + dual color silicone print Airblaster stack logo label

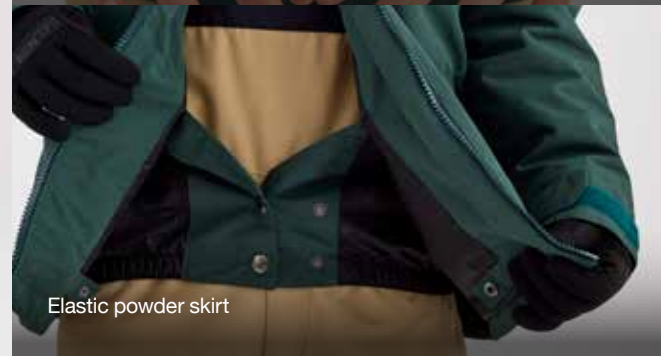

Rear body Airpill screen print for lift line flex

Mesh-lined zippered underarm vents

Lycra wrist gaiters

Elastic powder skirt

# FREEDOM PARKA

Pop hoods, not corn. From extremely Mild to fearsomely Wild, the Airblaster Freedom Parka features tonal or pop hood colors and prints to alert bystanders that the party has arrived. The combo of 80g insulation under drape of 10K waterproof outer fabric keeps you warm, dry, and comfortable in a season chock full of hot laps in all conditions imaginable. Might it be more fun when the carpet doesn't match the drapes? The obvious answer is YES.

## ADDITIONAL FEATURES

- 10K mm waterproofing
- 10K g/m<sup>2</sup> breathability
- Mid Baggy fit

# FREEDOM BIB

Get deep into powder, not debt. Experience the full storm protection, updated Mid Baggy fit, and dialed design of an iconic Airblaster bib, at a price that won't break the bank. You can keep your new fat wallet in the robust front chest pocket of the Freedom Bib. Now, I'm no math genius, but if my calculations are correct... full pant (+plus) half jacket (-minus) debt = Freedom Bib for the win. Stay dry. Stay Wild!

# LANDFORM SERIES

Michael McDaniel by Emily Tidwell

Technical apparel for summit, street, and beyond

Stay Wild! Anywhere and everywhere

Unisex grading accommodates myriad body shapes

Fleece, insulated, micro ripstop, and 10K shell options

Comfy, adjustable elastic + drawstring waist

Secure zippered pockets on all pants.

Versatile, quiver killing styles for travel and transition

4-way stretch fabrication used for all pants

Ergonomic, trim fit optimized for warmth, breathability, and layering.

Ample cut for full freedom of movement, without being baggy

Full freedom of movement. A bit baggy, but not in your way.

Ergonomic one-handed hood cinch

Under arm: outside is DryTech 3D™, inside is AirTech 3D-Eco™

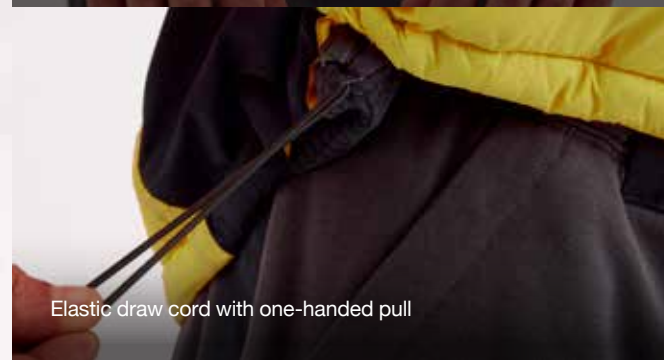

Lightweight minimalist materials for packable function

3 zippered pockets

Low profile elasticized soft shell cuffs

Elastic draw cord with one-handed pull

# BEAST CRUX INSULATOR

Pound-for-pound, the hardest hitting and most breathable technical insulator anywhere. 100g Primaloft® insulation and 20D micro ripstop nylon shell assure packability, while a combination of AirTech 3D-Eco™ and DryTech 3D™ softshell under arm allow the garment to stretch, breathe, and transport moisture better than any insulator you've ever met. One-handed hood cinch allows for on-the-fly adjustment. Fit is kept trim for functional layering.

## ADDITIONAL FEATURES

- Landform Active Fit, cut trim for layering
- Primaloft® packable insulation, 100% post consumer recycled content
- 100% recycled nylon micro ripstop outer
- 80/20 FC-Free Eco-DWR
- Zippered chest and hand pockets
- Ergonomic one-handed hood cinch
- Under arm: outside is DryTech 3D™, inside is AirTech 3D-Eco™
- 270g/m² DryTech 3D™ water repellent 4-way stretch double weave softshell fleece is 92% recycled content
- 270g/m² AirTech 3D-Eco™ 4-way stretch wicking micro fleece is 94% recycled poly
- 100% recycled poly embossed taffeta lining
- Lightweight minimalist materials for packable function
- 3 zippered pockets
- Low profile elasticized soft shell cuffs
- Elastic draw cord with one-handed pull
- Beast trims package
- Size up for more traditional baggy fit
- High density Beast Mountain print at chest

# QUICKSTRIKE HOODY

A truly transitional piece, the Airblaster Dry Tech hoody moves seamlessly through changing environments. Built from DryTech 3D™ highly water repellent / breathable, 4-way stretch, 270g/m<sup>2</sup> double weave softshell fleece, it features a one-handed hood cinch. Equally as comfortable for casual endeavors as it is during high-output alpine activities, this quiver-killing tech hoody will quickly assume the top spot for coffee runs, summit bids, and everything in between.

# AIR TECH PANT

The Airblaster Air Tech Pant is a highly technical mid layer bottom. For cold days, it is the perfect addition of warmth to compliment the Ninja Suit base layer. 270g/m² AirTech 3D-Eco™ has areas of high pile and low pile, creating a microfleece that is as warm and wicking when covered with a shell, releases excess heat and moisture when exposed to open air. Equally comfy in the apres game, the Air Tech Pant truly goes couch to summit.

BLACK

SHROOM

280g/m² brushed fleece in epic prints

Lycra binding at hand cuffs and top collar

Hidden adjustable draw cord at lower hem

# FLEECE HALF-ZIP

The Airblaster Fleece Pullover might be your new best friend, as far as layers go. Designed primarily as a casual everyday fleece pullover in epic prints, the 280g brushed fleece has more than enough warming/wicking power to serve as technical mid layer when the mercury drops. Two open hand pockets and zippered kangaroo pouch to keep your necessities secure. Adjustable drawcord at the lower body hem, plus a deep neck zip invites easy entry.

## ADDITIONAL FEATURES

- Landform Relaxed Fit
- 280g/m² brushed fleece in epic prints
- High pile for optimum warmth and excellent wicking / breathability.
- Deep neck zipper for easy access and venting
- Hidden adjustable draw cord at lower hem
- Zippered kangaroo pocket with open hand warmer pocket behind
- Locker loop at inside back neck
- Lycra binding at hand cuffs and top collar

# AIRBLASTER MICRO PUFF

From the early morning coffee run, up to the lifts, through the powder, and back down to the dinner party... The Airblaster Micro Puff is a certified quiver killer. 60g of quilted insulation packs significant warming power, but is low profile enough to keep you from looking like a marshmallow. Micro ripstop outer helps keep the weight low and the durability high. Hand pockets and a zippered chest pocket keep your digits warm and your phone secure, respectively.

BLACK

GRAPES

# TEAM VEST

Independently requested by half of the team, we had to give this "armless jacket" concept a try. The idea is (they said) that it keeps your torso warm while allowing your arms to move around real good. Being a constant force of innovation within the snowboard industry, Airblaster decided to just take the arms off the dang thing and let the freestyle flow. 80g insulation main body, 0g arms. Chain stitch Airpill quilting on back, all gussied up in the team colors. They call it a vest.

JADE

# CHAINZ LST

Nirks did it. Nick Dirks created the CHAINZ artwork for Airblaster. Here, we broke 'em chainz apart, and reattached 'em so they's going all down the sleeves. Would be really sick if you got those same chainz tattooed down your arms, then while you were wearing this shirt with chainz printed down the arms, you friggin ripped the sleeves off of your shirt. Three words about all of that: Totally. Worth. It. But maybe just get the shirt first.

BLACK

WHITE

LIME

SOFT PINK

# MAX LST

Max Warbington approved Terry art feat. trippy interfering wave patterns. Painted up in the same colors as the 2024 Max pro model outerwear, plus some other favorite hues roughly lifted from his previous pro model and soft goods color ups. Can you really have too many long sleeve tees? Especially considering how fresh these would look under the brand new Airblaster Team Vest!? (coincidentally, also available in Max's pro model color scheme)

GOLD

# GO MEDIUM SST

Sports are cool. Especially them "extreme sports". But here's the thing, neither staying wild nor having fun necessitate extreme behavior. The machismo adrenaline sports mantra of the early days, constantly haranguing us all to simultaneously blow out all of our joints at the same time... "Go BIG or go home, BRO!" Nah. Hydrate, stretch, maintain your body, and avoid chucking your carcass to the depths of flat tranny. Go MEDIUM, or go home... in a full body cast. Choice is yours.

BLACK

DARK CHOCOLATE

ATHLETIC NAVY

GOLD

# STYLE CORRECT SST

The early 90's was a big era for snowboarding. The raw energy of snowboarding combined with a healthy economy to create a proliferation of both snowboard culture and commercialized product. Buyer's guides represented 400+ snowboard brands, with grungy garage upstarts going head-to-head with tech savvy ski corps to get a piece of the action. Catch that mashed up hot energy right here, and don't forget to keep your Style Correct.

BLACK

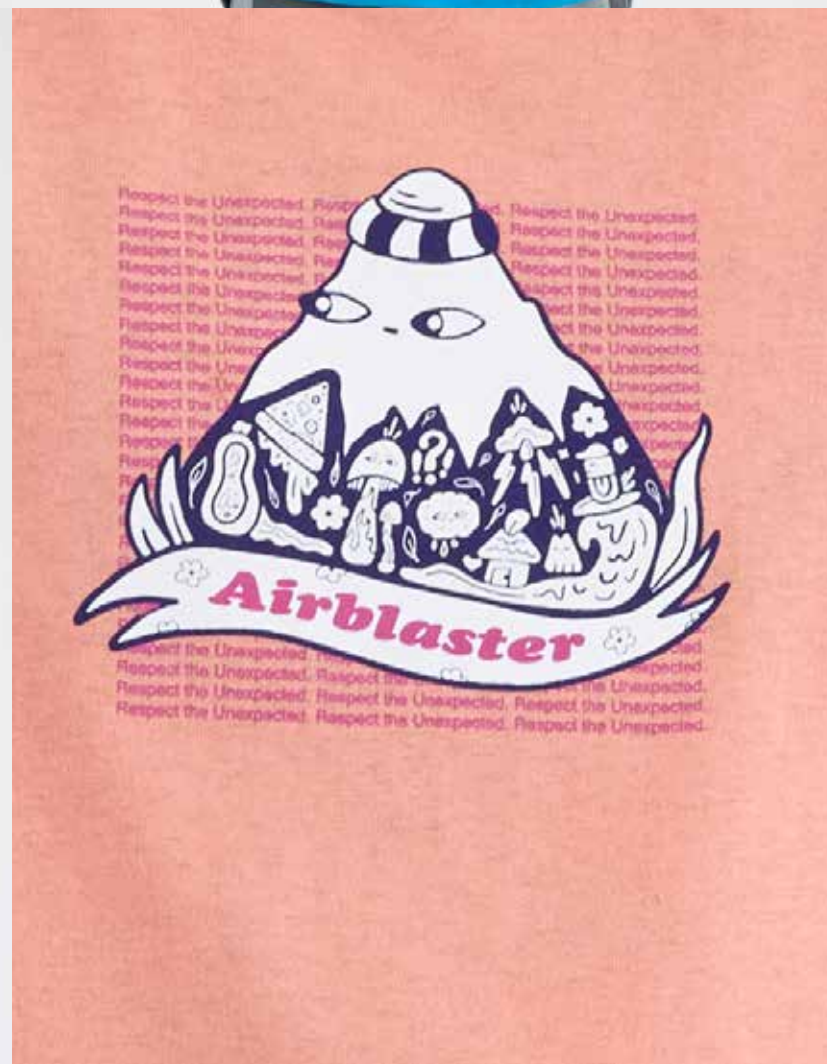

TURQOISE

KIWI

SAFETY PINK

# RESPECT SST

"Respect the unexpected." We knew it wasn't what she had meant to say, but it was too late. The unwitting brilliance and undeniable wisdom of the statement were etched in word for eternity. Instantaneous wisdom of the ancients, some might say. When we asked our friend and artist Bailey Stewart, aka @alwaysangstyyy, to create a monument to the phrase, we had no idea that she would erect an awesome mountain. Goes to show. Respect the Unexpected.

# LADY TRENCHOVER

We've reimagined our crowd favorite Men's Trenchover jacket, with unique styling and an updated Women's fit! The cut has ample room to move, but is not overly baggy, and the design maintains Airblaster's trademark full side zip for easy entry and exit. A thin layer of 40g insulation provides warmth without bulk. We invite you to drink in the tasty trios of harmonic color vibration that we've created for your visual enjoyment. Please party responsibly.

# HIGH WAISTED PANT

With a comfortable and flattering high waist and stretch side panels, the Women's High Waisted Trousers not only elevates your style, but brings the level of snow protection up to great new heights. Up to bib-level heights, to be exact. Airblaster first pioneered the high waisted + rib knit design in 2009, so you can rest assured that the fit, function, and finish are top notch, assuring that you'll be ready to make moves on the dance floor and in the powder.

# EVERY BODY BIB

Airblaster has long ruled the roost for Women's bibs. However, we have traditionally offered ladies bibs in our Tailored Fit, which works well for petite, medium, and tall builds... and leaves out everyone else. The Every Body Bib is based on a much fuller baseline shape, to fit those with wider and curvier builds, or smaller builds who prefer a roomier fit without excess leg length. Using the cinch strap at waist to customize, we have a bib that is flattering for just about... Every Body.

# TERRYCLAVA

The classic that started it all. We didn't invent this type of face mask. But when we decided to make a single layer acrylic mask, we did something different. Everything we'd ever seen up until that point was a double layer face beanie that would have a Florida man's face sweating in Antarctica. And soak up twice its weight in kid spit. Two layers = way too much. Single layer? Just right! Airpill on there? Even better. BTW, you had me at 'kid spit.'

# NO FLAP CAP

A midweight cap with a short soft brim and breathable mesh side panels, the Airblaster No Flap Cap is a versatile head covering with myriad uses. Featuring a new improved low profile ladder lock adjustment in the rear to customize fit, it can be cranked down securely should you be traveling at high speeds, or in the wind. This one is among the most packable caps we make, thanks to the crushable foam bill. Custom prints span the possibilities, allowing you to express, as you protect your dome from sun.

# STICKER PACK

Assorted awesome Airblaster stickers including airpill logo, pterodactyle logo, and more. Both vinyl printed and vinyl die cut stickers included.

# HOLOGRAPHIC STICKER PACK

Assorted Airblaster holographic, seasonal, extra-spicy, and otherwise special vinyl printed stickers.

# BIG AIRPILL STOMP PAD

Two-color, dual-density, self-adhesive foam Airpill stomp pad, 7.5" long. Slap it on your shred stick, for better traction.

# LIL' AIRPILLS STOMP PAD

Pack of three 3-inch long, self-adhesive foam embossed Airpills, each 3" long. Arrange these lil' blasters however you wish.

# BEAST DOOR MAT

We invite you to wipe your feet on our logo! Via this fine 2'x2' Airblaster Beast Door Mat. Standard low-knap door mat, only lighter, faster, higher, and wilder than the rest!

# AIRBLASTER LEG BAG

Is it function or is it fashion? The clear answer is: Yes. The Leg Bag straps around your leg, carrying snacks, spare goggle lens, snowboard tool, lip balm, season pass or lift ticket, a little rub on wax, and/or a small plastic pirate knife. Like a fanny pack for your leg. Convenience and style in one studly package! Just remember, when you see a Leg Bag out on the hill, it's very likely that there is a snowboard tool inside it. Get it!? The Board Dork is inside the Leg Bag.

Thanks for spending your time with us, and please remember friends: You vote with your dollars! Every time you choose to buy or sell a product from an independent, snowboarder-owned brand like Airblaster, you vote for us! You vote to keep the snowboarding ecosystem relevant, interesting, progressive, and downright awesome. You vote to keep us all creative and independent. When you vote for Airblaster, your dollars go towards hard working snowboarders and their families, including some really cute kids. And some really cute pups too. Every vote counts, and we appreciate yours.

**NINJA SUIT**<sup>®</sup>   
THE BEST BASE LAYER ON THE PLANET!

# UP HERE

Base layers are important.  
They go on first. They come off last.  
Like ninjas, they do a lot of work, but are rarely seen.

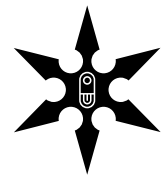

Airblaster base layers go hard all day so you can too.  
Peak performance base layers? Check.  
Stay Wild? Yes we do.

# NINJA SUIT PRO

Airblaster's next generation Ninja Suit Pro protects you from foul weather like no other base-mid layer hybrid. At hood, shoulders, and knees, DryTech 3D™ 4-way stretch 270g/m² double weave softshell fleece combines ultimate storm repellency and breathability. AirTech 3D-Eco™ microfleece fabric at main body provides dynamic warmth and moisture management. At wrists and ankles, durable low-profile compression rounds out the superior function of this ultimate base layer suit.

## ADDITIONAL FEATURES

- 270g/m² DryTech 3D™ water repellent 4-way stretch double weave softshell fleece is 92% recycled content
- 270g/m² AirTech 3D-Eco™ 4-way stretch wicking micro fleece is 94% recycled poly
- High pile + low pile fleece for max breathability and warmth
- 80/20 FC-Free Eco-DWR at shoulders
- YKK zippers throughout
- Durable nylon-blend compression fabric at cuffs, knees, and lower rear leg
- Easy entry / exit through full length center front zipper
- Zip from bottom up for easy-peezy bathroom breaks
- 350° hip zip - powder is best after a big dump
- 11-panel form-fitting hood with chin protector
- Thumb loops at cuffs

# MERINO NINJA SUIT

The gold standard of base layer, and perhaps the ultimate trip/travel suit. Built from our proprietary merino-rich 4-way stretch fabric, the Airblaster Merino Ninja Suit is the standard by which all other functional base layers are measured. With 55% Merino / 37% Tencel / 8% Spandex, our unique blend is 45% stronger and dries twice as fast compared to Merino alone. We use only non-mulesed wool from New Zealand and Australia, because sheep are people too.

## ADDITIONAL FEATURES

- 210g/m<sup>2</sup> Airblaster Merino blend is 55% merino wool, 37% nylon, 8% elastic
- YKK zippers throughout
- 4-way stretch merino fabric with Ninja Star embroidery
- 350° hip zip - powder is best after a big dump
- Full length 2-way zipper is less bulky and provides easy entry and bathroom breaks
- 7 panel form-fitting hood with chin protector
- Thumb loops at cuffs
- Waistband draw cord
- Ninja Star 2-color embroidery at chest

# MERINO TECH TEE

Ever decide whether to wash your favorite t-shirt after a single use, or wear it again but smell like dank sasquatch? Your new favorite tee--aka the Airblaster Merino Tech Tee--kills this discussion dead. Whether layering up for a hike (aka sweating), or seeking couch cuddle from a friend, our 4-way stretch, 210 g/m<sup>2</sup> Merino blend provides torso coverage in a soft, durable, odor resistant package. Begging the question, does dank sasquatch man even exist any more?

# YOUTH NINJA SUIT

The secret to longer, warmer days on hill.... For everyone! The simple, functional design of the Youth Ninja Suit makes for easier dressing and undressing, quicker potty breaks, and most importantly: Warmer, happier kids! Meaning an easier day for you, filled with less whining and more turns. The only new problem might be that your kids won't ever want to get out of their Ninja Suits... Fortunately, they also make the world's best pajamas.

# YOUTH BASE LAYER TOP

Like those other base layers, but way more fun! The mad scientists at Airblaster just may have brought the base layer category back from the dismal grave of gloomy color, with an electrifying jolt. Cut from the same cloth and fun prints as our iconic Youth Ninja Suit base layer, Airblaster Air Tech fabric provides superior 4-way stretch, plus loads of comfort and sweat-wicking function. Remember when everyone used to wear black base layer? Neither do we.

# TERRYCLAVA

Cozy face layer for KIDS! We didn't invent this type of face mask. But when we decided to make a single layer acrylic mask, we did something different. Everything we'd ever worn up until that point was a double-layer face sweater that would have a Florida man's face sweating in Antarctica. And soak up twice its weight in kid spit. Two layers is too much. Single layer? Just right! Airpill on there? Even better.

# YOUTH BEANIE

A soft and cozy beanie that keeps small heads warm and small people steezy. The Airblaster Youth Commodity Beanie is fit perfectly to smaller heads, and comes in the same array of colors as our adult Commodity Beanie. Acrylic knit is comfortable and has great rebound. Keeping kids warm, cute, and happy? Never a bad thing.
