NEW FRAMES

FOR WINTER 24/25

MIRAGE & THUNDERBOLT

For FW25 we've developed two new frames, the Mirage and the Thunderbolt. The Mirage is the lightest, softest and most form fitting frame Ashbury has ever offered and the Thunderbolt is a magnetic quick change lens frame with locking tabs, premium REVO lenses and anti-slip rubber straps.

KINETIC

PHOTOCHROMATIC LENS SERIES

LIGHT SENSITIVE PROTECTION

Now available in every model in our line, the Kinetic photochromatic goggle. Kinetic photochromatic lenses change from light tint to dark smoke tint when exposed to changes in outdoor luminosity. The lens darkens on contact with uv rays and lightens when light intensity is reduced. So, if the light intensity changes, the lens adjusts automatically. Its ability to adapt to changing environments makes it perfect for any situation from dusk to dawn, even with neutral light. The Kinetic series also have our new premium anti-slip strap featuring traction dots and a new fused Ashbury logo.

BLACKBIRD

This classic frame has been a team favorite for years because of its face conforming fit, soft flex and feel and its timeless aesthetic. The lens and top foam venting eliminates fog and there's an assortment of lens and strap options to fit every budget. It's also the best frame for all head sizes. Whether you have a pin head or a bulldog sized mellow, the Blackbird will look great and fit great.

FEATURES

- **TPU CONSTRUCTION** lightweight, durable & extremely flexible for an optimal fit.
- **FLAT LENS:** A flat, thin and flexible lens makes for clear, distortion-free vision.
- **ANTI-SCRATCH TREATMENT:** A hard coating applied to the lens protects the goggles from damage.
- **100% UV PROTECTION** to shield your eyes from harmful high-altitude UV rays.
- **FULL PERIMETER VENTING** maximizes airflow to prevent condensation from sweat & moisture.
- **MULTI-DENSITY HYPOALLERGENIC FACE FOAM** backed with moisture-wicking micro-fleece.
- **ADJUSTABLE STRETCH STRAP** with texture for a secure fit.
- Includes **MICROFIBER STORAGE BAG.**
- **HELMET COMPATIBLE** frame design.
- **SIZE:** Medium unisex fit & design

WARLOCK

Last year we brought back this classic Ashbury frame and it quickly became one of our best sellers due to its oversized frame and large field of vision. It fits like a bigger version of the Blackbird and has a more squared off frame to optimize the surface area of the lens so you can see more. It comes in an assortment of lens and strap options to fit every budget.

FEATURES

- **TPU CONSTRUCTION** lightweight, durable & extremely flexible for an optimal fit.
- **FLAT LENS:** A flat, thin and flexible lens makes for clear, distortion-free vision.
- **ANTI-SCRATCH TREATMENT:** A hard coating applied to the lens protects the goggles from damage.
