F/W 2025

manifesto

Welcome to 2025 with Stinky Socks.

What started as a small dream to represent snowboarding in our own way has grown into something far greater—a global family of unique individuals who embrace creativity, self-expression, and staying true to themselves.

The #stinkyfamily is built on the belief that being different is what makes us strong. From our humble beginnings, every step forward has been possible thanks to the incredible people who've joined us on this journey.

To our partners, riders, and supporters across the world—you are the heart of Stinky. Your belief in what we stand for has helped us create more than just socks; together, we've built a movement that spans continents and connects us all.

As we move into 2025, we promise to keep crafting products that represent this passion while honoring the connections we've made along the way. Thank you for being part of this story. Let's keep writing it together.

product features

Cotton - We are creating our socks with the finest cotton that keeps your feet comfy for the longest time.

Merino Wool - Blended in Italy, our Merino Wool fabric is the softest, finest wool. It will keep your skin hydrated without feeling damp and remove moisture from the skin. Temperature-regulating structure keeps you cool in the summer and warm in the winter while repels unpleasant odors. Breathable anti-itchy merino wool socks that you can wear for the longest time without washing.

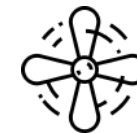

Cool cotton maX® moisture removal - We've created a special cotton treatment that allows the cotton fabric to absorb three times more moisture than its own weight before you even start feeling it.

Antibacterial treatment - the world's most widely used enduring antimicrobial surface protectant and coating is part of our socks.

Proudly sourced and produced in Europe

Air Flow - Our socks are built to ensure maximum airflow within their structure. By adding a unique vent feature on the ankle and the feet arch, we get that air moving within your feet.

Ultra Soft - Our cotton stays softer for the longest time of wearing the socks. So your Stinky Socks are functional and comfortable for an extended time.

Extra Grip - This unique silicon feature gives you extra grip in the boot, so there is no waste of energy when you aggressively turn going downhill.

Plastic Free - We are proud to be a plastic-free product. Using potato starch compostable bags, we've said NO to single-use polybags.

collaborations

goon gear

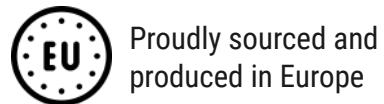

Since 2016, we've proudly stood with Lucas, Tonya, and Winter Magoon—true pioneers who've redefined snowboarding culture through **Goon Gear**. This collaboration is a celebration of shared values: individuality, passion, and building a family that thrives on creativity and connection. Together, we're honoring the **heart of snowboarding** and **the community that makes it all possible**.

HCSC x Stinky

The iconic summer camp, **High Cascade Summer Camp**, is now collaborating with Stinky Socks.

Since 1990, this camp has been vital to the development of the snowboard industry. As I grew up and watched clips from the slushy hills of Mt. Hood, I never imagined that today we would see the iconic marshmallow featured on a pair of Stinky Socks. HCSC holds **the future of snowboarding**, and we are honored to be part of it!

Windells x Stinky

Founded in 1988 in Whistler, BC by Tim Windell, the camp moved to Mt. Hood a year later.

Windells Summer Camps have been a part of the snow industry for over 30 years, providing the next generation with a launch path.

Legendary snowboarder and a great friend.

Brewer has seen it all in the snow industry. We are thrilled that he's part of the #stinkyfamily and that we got a bunch of his tattoos on a decent pair of Stinky Socks.
