BAGS

Welcome to the Armada FW 26 Softgoods Collection. This season's outerwear and apparel features refined fit profiles mirroring the progressive sense of style that's integral to the brand's identity. From pinnacle performance 3L GORE-TEX pieces, to streetwear-inspired mountain wear, to off-hill casual apparel, this collection is thoughtfully designed and meticulously crafted with a distinct sense of style that's unique to Armada.

SG TECH

MATERIALS

ARMADA X GORE-TEX

Our mission to build the best performing, most advanced outerwear possible would not be complete without our partnership with GORE-TEX. Our passion and creativity is now further strengthened by the latest technology and backed by sound science. The results are unique Armada designs offering the highest level of protection and comfort.

COHAESIVE CORD LOCKS

Cohaesive technology utilizes engineered components, adhesives, installation toolsets, and production processes to integrate and embed hardware into products for enhanced functionality and improved user experience.

OUTERWEAR FABRICS

Outerwear fabrics start with high-quality face fabrics, custom developed in a variety of weights and weaves that complement each unique design. Our fabrics are laminated to a high-performance waterproof, breathable membrane with a minimum standard of 10K/10K waterproofing and breathability while an additional PFC-free DWR treatment is applied to the exterior to shed water and

AR RECYCLED INSULATION

Our warmest garments feature 90%+ recycled insulation that not only keeps you comfortable in the coldest temperatures, but is also more sustainable for the planet.

SUSTAINABILITY

Sustainability for Armada Softgoods means designing product with high quality materials that are responsibly sourced and ethically manufactured. We are a proud bluesign systems partner and Fair Labor Association member. We require all of our material suppliers to adhere to a strict materials compliance policy. This policy enforces absolute transparency within our supply chain and dictates that we will only use materials with a limited chemical impact in coherence with the bluesign Restricted Substances List and that are ethically sourced.

Armada is also a member of the Sustainable Apparel Coalition which uses the Higg Index to measure environmental and social impacts within our supply chain. Where possible, we try to utilize recycled or sustainably sourced fabrics and materials. Here are some specific examples within our line:

1. ALL OF OUR INSULATION IS MADE FROM 90% RECYCLED MATERIAL OR GREATER

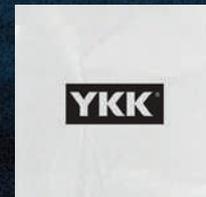

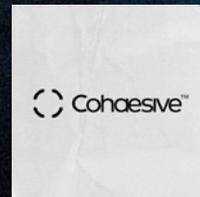

2. ALL OF OUR PAPER PACKAGING IS MADE FROM 100% FSC RECYCLED PAPER AND OUR POLYBAGS ARE 100% RECYCLED

3. WE USE RECYCLED FABRICS WHERE POSSIBLE (EX. ALL OF OUR 3-LAYER GORE-TEX FABRIC IS 100% RECYCLED)

4. WE USE CO DWR (PFOA and PFOS FREE)

5. OUR GORE-TEX OUTERWEAR USES EPE MEMBRANE (PFAS FREE)

6. 100% OF OUR COLLECTION IS PFAS (PER- AND POLYFLUOROALKYL SUBSTANCES) FREE

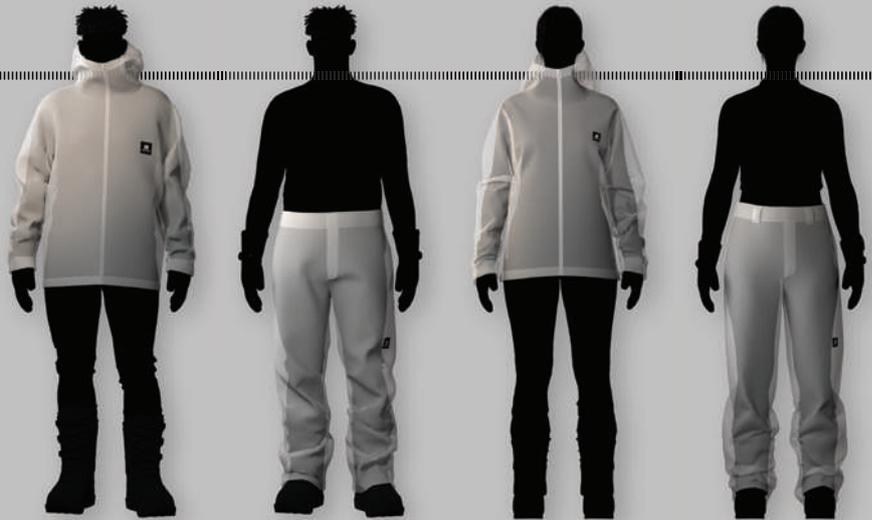

We believe that a truly sustainable product is one that doesn't end up in a landfill. Key to this concept is making high quality, durable products. We choose to work with key partners whom we believe will help our garments stand the test of time like GORE-TEX, Cohaesive, YKK, Cordura and Thermolite. Our outerwear is always 100% seam sealed and will never have a waterproof and breathability rating less than 10K/10k.

FITS

MEN'S & WOMEN'S STANDARD FIT

Slightly looser than the industry norm. The pant features a larger total rise with more room through the hips, thighs, and knees for a true straight-leg silhouette. The jacket mirrors this relaxed fit, offering extra width in the chest, waist, hem, and arms, with a slightly shorter overall front length for a balanced, modern look.

MEN'S & WOMEN'S TEAM FIT

A relaxed, performance-driven silhouette designed for freedom of movement and style. The jacket is straight in the body with a shorter length, featuring a boxy fit through the chest and hem, and large, dramatic armholes with generous volume from shoulder to cuff. The pant complements it with a true fit at the waist and bold volume through the crotch and legs, creating a natural, effortless stack at the hem.

WOMEN'S PROGRESSIVE FIT

Women's-specific, athlete-inspired baggy fit jacket. Straight in the body with a shorter length.

Boxy fit through the chest and hem. Large and dramatic armhole drop with big arm volume from the shoulder to sleeve cuff.

MEN'S AVATAR DETAILS

Body Measurement Description	LARGE
Total Height	71in. (180cm)
Chest/Bust	43in. (109cm)
Waist	37 1/4in. (94.5cm)

Hip	43.1/4in. (109cm)
Inseam	31.3/4in. (80cm)
Arm Length	33.5/8in. (86cm)

WOMEN'S AVATAR DETAILS

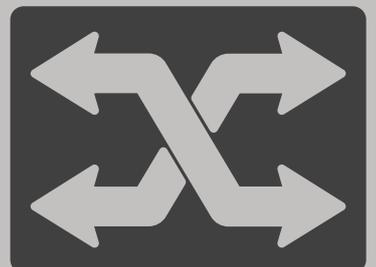

Body Measurement Description	SMALL
Total Height	66in. (167cm)
Chest/Bust	34 1/2in. (87cm)
Waist	27 1/2in. (70cm)

Low Hip	37in. (94cm)
Inseam	30 1/4in. (76cm)
Arm Length	30 1/2in. (76cm)

CROSSOVER STYLES

Crossover Styles are gender neutral pieces in our collection designed to be worn by anyone. They utilize men's sizing, and women are encouraged to size down by one full size. *Look for the icon.*
