KINETIC LENS MODELS

PHOTOCROMATIC LIGHT SENSITIVE TECHNOLOGY

Now available in every model in our line, the Kinetic photochromatic goggle. Kinetic photochromatic lenses change from light tint to dark smoke tint when exposed to changes in outdoor luminosity. The lens darkens on contact with UV rays and lightens when light intensity is reduced. So, if the light intensity changes, the lens adjusts automatically. Its ability to adapt to changing environments makes it perfect for any situation from dusk to dawn, even with neutral light. The Kinetic series also have our new premium anti-slip strap featuring traction dots and a new fused Ashbury logo.

THUNDERBOLT SERIES

THE ULTIMATE

We threw all our tech into our flagship model. We threw all our tech into this one goggle. It's got a magnetic quick lens with locking clips, premium mirror and REVO lenses and all the versions come with anti-slip rubber on the inside of the straps including the Kinetic photochromatic top tier version. This is hands down the most tech goggle Ashbury has ever produced. It's lightweight, magnetic, has the best lenses and the best straps. It's damn near perfect.

FEATURES

- **TPU CONSTRUCTION** lightweight, durable & extremely flexible for an optimal fit.
- **MAGNETIC LENS TECHNOLOGY** with new perimeter clip-lock for secure lens connection.
- **ADDITIONAL YELLOW LENS:** Perfect for low light, cloudy days and night riding.
- **FRAMED LENS:** A framed lens for scratch free quick changes and clear, distortion-free vision.
- **ANTI-SCRATCH TREATMENT:** A hard coating applied to the lens protects the goggles from damage.
- **100% UV PROTECTION** to shield your eyes from harmful high-altitude UV rays.
- **FULL PERIMETER VENTING** maximizes airflow to prevent condensation from sweat & moisture.
- **MULTI-DENSITY HYPOALLERGENIC FACE FOAM** backed with moisture-wicking micro-fleece.
- **ADJUSTABLE ANTI-SLIP STRETCH STRAP** with grip dot texture for a secure helmet fit.
- **INCLUDES MICROFIBER STORAGE BAG.**
- **HELMET COMPATIBLE** frame design.
- **SIZE:** Medium-large unisex fit & design

A12 SERIES

MAGNETIC BLACKBIRD

This is a new version of the A12 that has a new 3 layer foam fit and new Kinetic version with anti-slip coating in the inside of the strap. It's the tech version of the Blackbird and has become one of our best sellers globally. This magnetic quick change lens features our m9 tech with 9 points of connection for an ultra strong magnetic connection. You ain't losing this lens.

FEATURES

- **TPU CONSTRUCTION** lightweight, durable & extremely flexible for an optimal fit.
- **MAGNETIC LENS TECHNOLOGY**
- **ADDITIONAL YELLOW LENS:** Perfect for low light, cloudy days and night riding.
- **STRUCTURED LENS:** Perfectly shaped to snap into the frame and offer clear, distortion-free vision.
- **ANTI-SCRATCH TREATMENT:** A hard coating applied to the lens protects the goggles from damage.
- **100% UV PROTECTION** to shield your eyes from harmful high-altitude UV rays.
- **FULL PERIMETER VENTING** maximizes airflow to prevent condensation from sweat & moisture.
- **MULTI-DENSITY HYPOALLERGENIC FACE FOAM** backed with moisture-wicking micro-fleece.
- **ADJUSTABLE STRETCH STRAP** with texture for a secure fit.
- **INCLUDES MICROFIBER STORAGE BAG.**
- **HELMET COMPATIBLE** frame design.
- **SIZE:** Medium unisex fit & design

MIRAGE SERIES

THE ORIGINAL

The lightest frame Ashbury has ever produced; best for smaller to mid sized faces, the Mirage is a classic clip in style lens goggle with a fresh and modern aesthetic. It comes in 3 versions including the premium Kinetic photochromatic lens version with a high end anti-slip rubber texture on the inside of the strap.

FEATURES

- **TPU CONSTRUCTION** lightweight, durable & extremely flexible for an optimal fit.
- **ADDITIONAL YELLOW LENS:** Perfect for low light, cloudy days and night riding.
- **FLAT LENS:** A flat, thin and flexible lens makes for clear, distortion-free vision.
- **ANTI-SCRATCH TREATMENT:** A hard coating applied to the lens protects the goggles from damage.
- **100% UV PROTECTION** to shield your eyes from harmful high-altitude UV rays.
- **FULL PERIMETER VENTING** maximizes airflow to prevent condensation from sweat & moisture.
- **MULTI-DENSITY HYPOALLERGENIC FACE FOAM** backed with moisture-wicking micro-fleece.
- **ADJUSTABLE STRETCH STRAP** with texture for a secure fit.
- Includes **MICROFIBER STORAGE BAG.**
- **HELMET COMPATIBLE** frame design.
- **SIZE:** Small-medium unisex fit & design

WARLOCK SERIES

BIGGER IS BETTER

Two seasons ago we brought back this classic Ashbury frame and it quickly became one of our best sellers due to its oversized frame and large field of vision. It fits like a bigger version of the Blackbird and has a more squared off frame to optimize the surface area of the lens so you can see more. It comes in an assortment of lens and strap options to fit every budget.

FEATURES

- **TPU CONSTRUCTION** lightweight, durable & extremely flexible for an optimal fit.
- **FLAT LENS:** A flat, thin and flexible lens makes for clear, distortion-free vision.
- **ANTI-SCRATCH TREATMENT:** A hard coating applied to the lens protects the goggles from damage.
- **100% UV PROTECTION** to shield your eyes from harmful high-altitude UV rays.
- **FULL PERIMETER VENTING** maximizes airflow to prevent condensation from sweat & moisture.
- **MULTI-DENSITY HYPOALLERGENIC FACE FOAM** backed with moisture-wicking micro-fleece.
- **ADJUSTABLE STRETCH STRAP** with texture for a secure fit.
- Includes **MICROFIBER STORAGE BAG**.
- **HELMET COMPATIBLE** frame design.
- **SIZE:** Medium-large unisex fit & design

BLACKBIRD SERIES

THE ORIGINAL

This classic frame has been a team favorite for years because of its face conforming fit, soft flex and feel and its timeless aesthetic. The lens and top foam venting eliminates fog and there's an assortment of lens and strap options to fit every budget. It's also the best frame for all head sizes. Whether you have a pin head or a bulldog sized mellon, the Blackbird will look great and fit great.

FEATURES

- **TPU CONSTRUCTION** lightweight, durable & extremely flexible for an optimal fit.
- **FLAT LENS:** A flat, thin and flexible lens makes for clear, distortion-free vision.
- **ANTI-SCRATCH TREATMENT:** A hard coating applied to the lens protects the goggles from damage.
- **100% UV PROTECTION** to shield your eyes from harmful high-altitude UV rays.
- **FULL PERIMETER VENTING** maximizes airflow to prevent condensation from sweat & moisture.
