

**BENT METAL**  
BINDING WORKS  
WINTER 26/27

**“A consortium of engineers, designers and life long snowboarders who are dedicated to bringing to life the world’s best bindings.”**

## ✖ Freedom Of Choice: **Pick Your Line**

For 26/27 **Bent Metal Binding Works** offers a complete spectrum of binding technology!

Our **SUPERMATIC®** automatic binding system fits any boot including the ones you already own and can be operated manually if desired... Automatic, Universal, Dual-Entry the best of all worlds!

Our **BMBW Original Precision** binding line is constantly pushing performance levels...this year we are thrilled to introduce the T Zero freestyle model with a zero forward lean cube/ highback system and our all new Fast Action toe strap technology that speeds buckle in time taking traditional systems into the future.

All new this year, BMBW is stoked to introduce our **Light Speed** semi automatic binding line featuring Speed-In rear entry technology on three distinct models. This system offers incredible light weight and high performance combined with fast entry and ease of use and bridges the gap between our Original system and full automation. **BINDING WORKS!**

**BMBW ORIGINAL**  
**PRECISION**

✖ **LIGHT SPEED**

**SUPERMATIC®**

## **BMBW ORIGINAL PRECISION**

### **PRECISION / PERFORMANCE**

Decades of refinement, crafted for peak performance and precision.

- **THE ORIGINAL PERFORMANCE BINDING**  
A model refined for every rider and terrain, built with advanced components to deliver state-of-the-art control.
- **FLEX CONTROL DRIVE PLATES**  
Fiberglass panels in the footbed create specific flex patterns similar to your snowboard for personalized binding response. The dynamic energy of the advanced composites gives you a flex control performance advantage like no other binding can.
- **REVOLUTIONARY CUBE**  
The BMBW Revolutionary Cube is the worlds fastest tool free forward lean adjuster. Simply spin cube for the desired forward lean angle. It's fool proof. Easily adjust and experiment while on the hill.

MANUAL

## **X LIGHT SPEED**

### **FASTER / LIGHTER**

Faster than Traditional. Lighter than Automatics. Best of both.

- **FASTER THAN TWO STRAP**  
Get in and out faster with less effort. The Reclining Highback and Auto Open Strap System make entry and exit quick and seamless—so you can beat the crowd and ride more.
- **LIGHTER THAN AUTOMATICS**  
Ride lighter, react quicker, all day. An ultra-lightweight design reduces fatigue and boosts responsiveness, giving you better control and faster reactions on any terrain.
- **SPEED.COMFORT.RESPONSE.**  
A high-performance blend built for riders who want the best of both worlds.

SEMI-AUTOMATIC

## **SUPERMATIC®**

### **AUTOMATIC / UNIVERSAL / DUAL-ENTRY**

Game Changer. Hands-free speed entry that works with any boot and feels like a two-strap.

- **AUTOMATIC**  
With Supermatic®, you can start riding right off the chairlift. No more fiddling with buckles – just drop your boot in and go.
- **UNIVERSAL**  
Supermatic® works with any boot from any brand – so you don't need to compromise on fit or buy a whole new boot/binding 'system'.
- **DUAL-ENTRY**  
Conventional Ankle and Toe Straps to easily enter and exit the binding if needed and you get that familiar two strap ride and feel.

AUTOMATIC

**BMBW ORIGINAL**  
**PRECISION BINDINGS**

BMxBW

# FLEX CONTROL DRIVE PLATES

Fiberglass panels in the footbed create specific flex patterns similar to your snowboard for personalized binding response. The dynamic energy of the advanced composites gives you a flex control advantage like no other binding can.

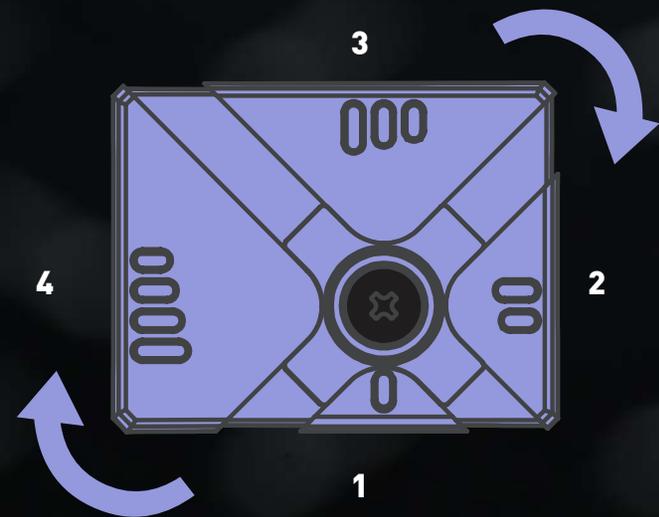

BMxBW PERFORMANCE PATENT #9844718

# **BMBW REVOLUTIONARY CUBE**

The BMBW Revolutionary Cube is the worlds fastest tool free forward lean adjuster. Simply spin cube for the desired forward lean angle. It's fool proof. Easily adjust and experiment while on the hill. Urethane skateboard wheel construction absorbs shock and vibration. Visual indicators let you know angle selected.

- **FASTEST AND EASIEST FORWARD LEAN ADJUSTER EVER**
- **DUAL DUROMETER URETHANE DAMPENING**
- **ALL MODELS**

# BMBW DUAL BAND ANKLE STRAPS

---

Our unique **Dual Band** ankle strap design uses a firm central “Power Band” to transmit rider input to the board, while a larger and softer “Flex Band” enables the boot to articulate for a larger range of expression and increased comfort. The overlapping materials create transition zones and fuse to form a uniquely tuned response and comfort level not achieved in a single material strap.

- Two bands with different Flex and Power properties fuse for maximum comfort and tuned response
- Individually shaped Power Bands tune response to excel during different riding conditions and styles

# **FAST ACTION TOE STRAP**

---

**“FAST ACTION” TOE STRAP FEELS LIKE THE MOST INTUITIVE EXPLANATION OF OUR NEW CLOSED LOOP TOE STRAP TECHNOLOGY...FAST ACTION IS WHAT IT PROVIDES. IT PUTS OUR HIGH PERFORMANCE TRADITIONAL BINDINGS IN A VARIATION OF THE SEMI AUTOMATIC SPACE..**

- **“One less mouth to feed”. Toe strap ladder and strap stay connected and pivot forward to your board allowing fast entry and eliminate need to find and feed toe strap into buckle...click tight and you are off and ripping in 33% less time....fast action!**
- **Snake tongue ladder strap design allows traditional entry and exit if desired.**

## ✖ BINDING WORKS CHASSIS SYSTEMS

### • UNI-BODY CHASSIS

- Uni-Body Polymer Design
- Absorbs vibration for smooth ride
- Adjustable Toe Ramp
- Large Axis Disk - Toe/Heel centering is in disk

### • TWO PIECE CHASSIS

- Two Piece Polymer and Aluminum Design
- Responsive Aluminum and Polymer combine for a precise ride
- Adjustable Aluminum Heelcup - Toe/Heel centering is in heel cup
- Mini Pivot Disk

## **✖ BINDING WORKS ANKLE STRAPS**

### **• MOBILITY ANKLE STRAP**

A 3D ARCHITECTURAL DESIGN CREATES COMFORT AND PERFORMANCE IN AN INTRICATE YET SIMPLE FORM. STRATEGIC CORING ENABLES STRAP TO FLEX FOR MOBILITY AND COMFORT WHILE INTEGRATED POWER RIDGES PROVIDE RESPONSE AND ACCURATE FEEDBACK.

- BMX, BOLT, BEAM MODELS
- LIGHTWEIGHT, WITH INCREASED FLEX
- FREESTYLE MOBILITY
- 3D ARCHITECTURAL STRUCTURE.
- TPU ELASTOMER

### **• POWER FLEX ANKLE STRAP**

FORMULATED FOR PERFORMANCE AND COMFORT. BUILT SIMPLE FOR DURABILITY, FORMED EVA FOAM PADS ARE MESHED WITH A LIGHT AND STRONG STRUCTURAL CORE. PERIMETER OF STRAP FLEXES WITH YOUR BOOT SO YOU NEVER HAVE UNCOMFORTABLE PRESSURE POINTS. ANKLE STRAPS ARE STRIPPED DOWN TO THE BARE ESSENTIALS FOR LIGHTWEIGHT, COMFORT AND FUNCTION.

- JOINT, METTA MODELS
- LIGHTWEIGHT AND FLEXIBLE WITH ADDED CUSHION FOR COMFORT

### **• DUAL BAND ANKLE STRAP (SOFT)**

#### **SOFT POWER BAND**

A SMALLER SURFACE AREA WITH A LARGE CORED COMPRESSION WINDOW CREATES A SOFT AND EXTRA COMFORTABLE FLEX GREAT FOR FREESTYLE AND ALL MOUNTAIN RIDING.

- AXTION, STYLIST MODELS
- CORED COMPRESSION WINDOW AND NARROWER SHAPE FOR SMOOTH FLEX AND EXTRA COMFORT

### **• DUAL BAND ANKLE STRAP (SOFT ASYM)**

#### **SOFT ASYMETRIC POWER BAND**

FREESTYLE SPECIFIC PROPERTIES ARE SHAPED INTO THIS POWERBAND BY COMBINING A SOFT FLEXING COMPRESSION WINDOW WITH A NARROWED MEDIAL SIDE FOR UNIMPEDED MOBILITY OFFSET BY A MORE SUPPORTIVE LATERAL SIDE TO KEEP YOU CENTERED AND STICK LANDINGS.

- LOGIC, ANVIL MODELS
- ASYM SHAPED CORED COMPRESSION WINDOW FOR FREESTYLE MOVEMENT

### **• DUAL BAND ANKLE STRAP (MED)**

#### **MEDIUM POWER BAND**

THE MEDIUM FLEX POWER BAND HAS A MID RANGE SIZE SURFACE AREA FOR A SUPPORTIVE RESPONSE AND COMFORTABLE RIDE IN THE BROADEST RANGE OF CONDITIONS.

- TRANSFER, FORTE MODELS
- MID-RANGE SIZE AND SHAPE FOR CONSISTENT SUPPORT IN ALL CONDITIONS

### **• DUAL BAND ANKLE STRAP (STIFF)**

#### **STIFF POWER BAND**

A LARGER SURFACE AREA WITH SUPPORTIVE STRUCTURAL RIBS INCREASES RESPONSE AND ADDS PRECISION DURING POWERFUL RIDING AT HIGHER SPEEDS.

- SOLUTION MODEL
- LARGE SURFACE AREA WITH 3D STRUCTURE REINFORCEMENT

## **✖ BINDING WORKS TECHNOLOGY**

### **• LIGHT FORM TOE STRAP**

- BMX, BOLT, JOINT, BEAM, METTA, CLIP MODELS
- LOW PROFILE DESIGN FORMS PRECISE GEOMETRY FOR MAXIMUM FIT AND FEATHER WEIGHT.

### **• GRIP FORM TOE STRAP**

- ALL MODELS EXCEPT BMX, BOLT, JOINT, BEAM, METTA
- SECONDARY FLEXIBLE PANEL FORMS TO ANY BOOT FOR MAXIMUM GRIP.

### **• FORGED ALUMINUM BUCKLES**

- ALL MODELS EXCEPT BMX, CLIP
- HARDENED FOR ULTIMATE STRENGTH
- LIGHTWEIGHT WITH SMOOTH ENTRY AND RELEASE

### **• DIE CAST ALUMINUM BUCKLES**

MOLTEN ALUMINUM IS Poured TO FORM A STRONG, LIGHTWEIGHT LEVER BUILT FOR DEPENDABLE PERFORMANCE.

- BMX, CLIP MODELS
- DURABLE AND LIGHTWEIGHT
- DEPENDABLE ALUMINUM STRENGTH

## **X BINDING WORKS TECHNOLOGY**

### **• 0° CUBE SYSTEM**

NEW CONFIGURATION ALLOWS FOR MORE RELAXED FORWARD LEAN POSITIONS, ENHANCING MOBILITY AND FORGIVENESS— IDEAL FOR FREESTYLE TERRAIN AND FLOW-ORIENTED RIDING STYLES.

- RELAXED 0°, 3°, 6°, 9° INCREMENTS AND RANGE.

EXCLUSIVELY ON: T-ZERO

### **• FAST ACTION TOE STRAP**

- QUICK ENTRY & EXIT – EFFORTLESS ENGAGEMENT WITH A SIMPLE PUSH-DOWN MOTION.
- ALWAYS READY – STRAP STAYS IN POSITION FOR FAST RE-ENTRY.
- NO THREADING REQUIRED – INNOVATIVE LADDER DESIGN ELIMINATES THE NEED TO FEED STRAPS MANUALLY.

### **• FAST ACTION TOE STRAP SNAKE TONGUE TOE LADDER**

THE SPECIALIZED TOE LADDER KEEP THE STRAP CONNECTED WHEN YOU STEP OUT SO RE-ENTRY IS QUICK AND EASY.

### **• REVOLUTIONARY CUBE**

- ALL MODELS
- FASTEST AND EASIEST FORWARD LEAN ADJUSTER EVER
- DUAL DUROMETER URETHANE DAMPENING

### **• SECURITY SCREW**

An added layer of connection that ensures the Driveplate stays firmly attached to the Baseplate.

- Provides secure connection between Driveplate and Baseplate.

## **✖ BINDING WORKS DRIVEPLATE TECHNOLOGY**

### **• INJECTED FIBER DRIVEPLATE**

MAXIMUM PERFORMANCE, MINIMUM SPEND.

ENGINEERED FOR VARIABLE FLEX RESPONSE AND CONTROL, NONLINEAR GLASS FIBERS ARE INJECTED INTO A POLYMER PANEL TO DELIVER TARGETED PERFORMANCE ACROSS VARIED TERRAIN AT A RIDER FRIENDLY PRICE POINT.

- GLASS FIBER-INJECTED POLYMER PANEL
- DURABLE PERFORMANCE AT A RIDER-FRIENDLY PRICE

AVAILABLE ON: BMX, CLIP

### **• COMPOSITE FIBER DRIVEPLATE**

THE ORIGINAL ADVANTAGE

WE REVOLUTIONIZED BINDING PERFORMANCE WITH REMOVABLE COMPOSITE FIBER PANELS IN THE FOOTBED—BUILT USING THE SAME MATERIALS AND TECHNIQUES AS SNOWBOARDS. CUSTOM-ORIENTED FIBERS CREATE FLEX PATTERNS AND RESPONSE UNMATCHED BY CONVENTIONAL CONSTRUCTION. THIS PATENTED INNOVATION DELIVERS OUR FLEX CONTROL ADVANTAGE, FOUND ONLY ON BMBW BINDINGS.

- LINEAR WET LAYUP COMPOSITE PANELS
- FINE TUNED FOR SPECIFIC FLEX AND CONTROL.

### **• OVER-DRIVEPLATE**

MAXIMIZED AND MINIMALIZED FOR PRECISION PERFORMANCE

A SPECIALIZED EVOLUTION OF OUR FLEX CONTROL DRIVE PLATES, THE OVER-DRIVE PLATE IS ENGINEERED FOR ADVANCED RIDERS SEEKING MAXIMUM RESPONSE AND CONTROL. WE'VE REDUCED WEIGHT AND INCREASED REACTIVITY FOR ULTRA-SENSITIVE TERRAIN FEEDBACK. A LARGER AND MAXIMIZED CARBON COMPOSITE PANEL DELIVERS AMPLIFIED ENERGY TRANSFER AND PRECISION. THE EVA FOOTBED HAS BEEN MINIMIZED AND REPOSITIONED BENEATH THE PLATE TO ABSORB SHOCK WHILE CREATING A DIRECT BOOT-TO-CARBON CONNECTION FOR UNMATCHED BOARD FEEL. THE CARRIAGE DESIGN IS STRIPPED DOWN TO THE ESSENTIALS—JUST THE FRONT HOOKS AND REAR CLIP REMAIN—FOR A LIGHTER, MORE RESPONSIVE RIDE.

KEY FEATURES:

- INCREASED CARBON PANEL RESPONSE
- LIGHTWEIGHT, MINIMALIST DESIGN
- ENHANCED TERRAIN FEEDBACK & CONTROL

# BENT METAL

## **X BINDING WORKS TECHNOLOGY**

### **• LOVE HANDLE HIGHBACK**

- BMX, BOLT, JOINT, BEAM, METTA, CLIP MODELS
- LARGE CORED HOLE ON HIGHBACK REDUCES WEIGHT, AND ENABLES YOU TO GRAB YOUR BOARD NATURALLY AND CARRY IT EASILY

### **• SOLID HIGHBACK**

- AXTION, TRANSFER, SOLUTION, STYLIST, MODELS
- SEAMLESS POWER TRANSFER. SOLID HIGHBACK FOR TRADITIONALISTS.
- NICE PLACE FOR GRAPHICS

### **• X-FRAME CORED HIGHBACK**

- ANVIL MODEL
- CORED FOR LIGHTWEIGHT
- X-FRAME ARCHITECTURE FOR ADDED RESPONSE

### **• CANTED FOOTBED HEEL SHOCK PAD**

- 3° CANTED FOOTBED PADDING CENTERS RIDERS BALANCE WHILE INCREASING DRIVE AND POP. HEEL SHOCK PAD PROVIDES EXTRA ABSORPTION FROM HARD LANDINGS.

### **• SMALL PIVOT DISK**

- T-ZERO, TRANSFER, SOLUTION, MODELS
- 2X4 AND CHANNEL™ MOUNTING PATTERN COMPATIBILITY
- REDUCED SIZE, INCREASES TRUE BOARD FLEX ZONE AND DRIVE PLATE POWER

### **• LARGE AXIS DISK**

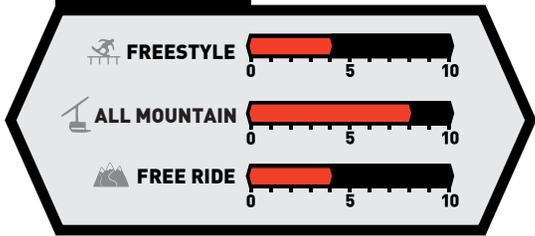

- BMX, BOLT, JOINT, ANVIL, AXTION, BEAM, METTA, CLIP, ASTRA, STYLIST MODELS
- 2X4, 4X4 AND CHANNEL™ MOUNTING PATTERN COMPATIBILITY
- ADJUST BINDING TIP TO TAIL OR EDGE

Featured Artist Kaelin Cassidy is a master of detailed line work, especially when it intersects where chaos meets beauty. This white Stylist with pink accents perfectly blends the delicate defiance of butterflies and barbed wire. We loved it so much we partnered with Kaelin for the full kit collab on the Gnu Fiction to pair with your Stylist.

STYLIST

## GREY

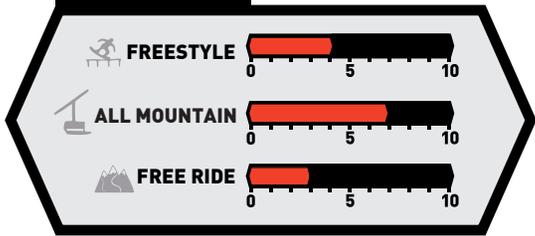

Hannah Eddy is our featured artist on both this Stylist masterpiece and the Gnu Velvet. The frog is an icon of luck and renewal. Every day you strap in is a good day, leap into limitless possibilities and bust out of the norm with style, you won't regret it.

# **✖ BMBW LIGHT SPEED TECHNOLOGY**

**3 Auto Lever**

## **• BMBW LIGHT SPEED TECHNOLOGY**

BMBW's unique speed entry binding system is the ultimate in performance, speed, ease and comfort. Fits any snowboard boot. Set your bindings up once and one lever gets you in and out with amazing ease all season long. Enjoy more time riding and smiling and less time fiddling and sitting. Hit the pressure release button in the lift line for max comfort and circulation as you float up to the top for another epic run... SUPER LIGHT AND FAST BINDINGS!

### **UNIQUE TECHNOLOGY**

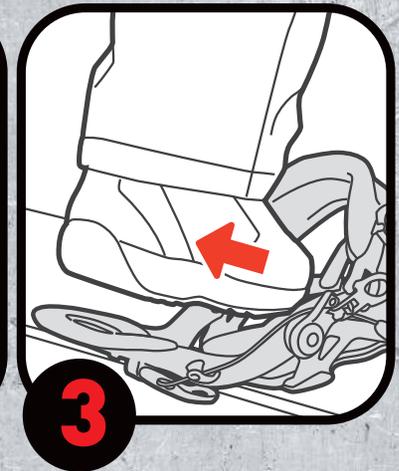

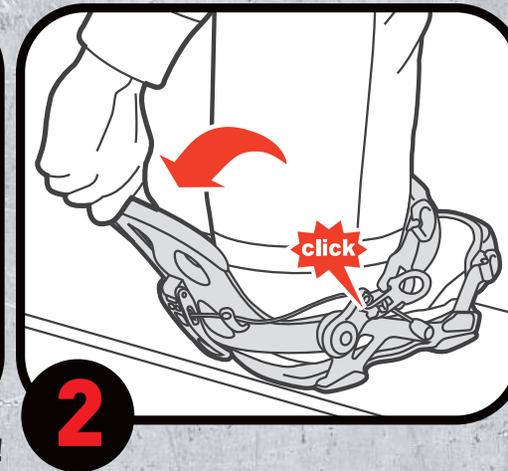

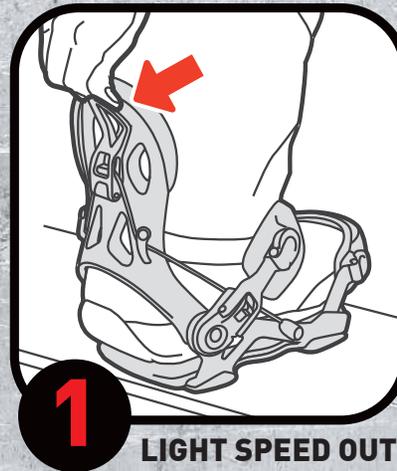

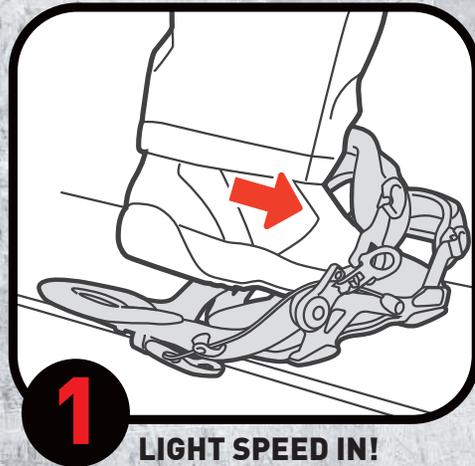

- 1. Reclining Highback - Rear Entry Advantage**
- 2. Cable Redirection - Unimpeded Movement**
- 3. Auto Lever - Simplified Entry**
- 4. Auto Open Ankle Strap - Opens Auto MAGICALLY!**

# HOW TO LIGHT SPEED

**SPEED ENTRY  
BINDING SYSTEM  
FASTER, EASIER,  
SMARTER**

**LIGHTWEIGHT,  
PERFORMANCE AND  
STRENGTH IN AN  
INCREDIBLY FAST  
BINDING SYSTEM!**

# **X** BMBW LIGHT SPEED TECHNOLOGY

## • RECLINING HIGHBACK

REAR ENTRY ADVANTAGE

MAKES ENTER AND EXIT INCREDIBLY FAST AND EASY, WITH ONE HAND.

## • AUTO OPEN SYSTEM

WORKS LIKE MAGIC.  
OPENS AUTO-"MAGICALLY"

UPPER STRAP OPENS  
AUTO-"MAGICALLY" WHEN HIGHBACK  
RECLINES FOR A QUICK, EASY AND  
EXTRA LARGE ENTRY AND EXIT ZONE.

## • AUTO LEVER

SIMPLIFIED ENTRY

ONLY ONE CLICK TO APPLY THE RIGHT  
AMOUNT OF PRESSURE. NO MORE  
FUMBLING WITH RATCHET BUCKLES.

## • PRESSURE RELIEF BUTTON

WARM, HAPPY FEET

CAN BE PRESSED MANUALLY TO RELAX  
ANKLE STRAP PRESSURE ON FRONT AFTER  
RUN WHILE BOOTS REMAINS SECURE IN  
BINDING. INCREASED BLOOD FLOW  
KEEPS FEET COMFORTABLE AND WARM.

## • FLIP FLEX ANKLE STRAP

EASILY CUSTOMIZE YOUR RIDE FEEL—  
JUST FLIP THE ANKLE STRAP.

CHOOSE A RESPONSIVE SETUP FOR AGGRES-  
SIVE TERRAIN, OR SWITCH TO A FORGIVING  
CONFIGURATION THAT EXCELS IN FREESTYLE  
ENVIRONMENTS.

## • ANKLE/TOE STRAP MICRO BUCKLE

MULTI-ENTRY OPTION

MICRO BUCKLES ON BOTH STRAPS  
ENABLE YOU TO OPEN AND CLOSE BOTH  
STRAPS IN TRADITIONAL WAY IN CASE  
YOU NEED THAT OPTION.

## **X** BMBW LIGHT SPEED TECHNOLOGY

### • **CABLE RE-DIRECTION**

UNIMPEDED MOVEMENT

ENSURES MAXIMUM FREEDOM OF MOVEMENT OF BOOT. REDUCES STRAIN WHEN CLOSING HIGHBACK.

### • **TOE CUP WRAP STRAP**

PRECISION FIT AND RESPONSE

SECURES BOOT IN PLACE FOR A PERFECT FIT EACH TIME. WRAP DESIGN PROVIDES MORE SUPPORT AND RESPONSE WHILE ELIMINATING WEDGE AND CINCH PRESSURE.

### • **HIGHBACK ROTATION**

CUSTOM SUPPORT

HIGHBACKS CAN BE ROTATED Laterally to find the custom support angles that work for your style of riding.

**BMBW SUPERMATIC® BINDINGS**

# **BENT\*METAL** **SUPERMATIC<sup>®</sup>**

**“The worlds fastest easiest to use  
forward lean adjuster meets the  
worlds fastest easiest to use  
binding technology.”**

# SUPERMATIC®

AUTOMATIC / UNIVERSAL / DUAL-ENTRY

# SUPERMATIC®

**AUTOMATIC / UNIVERSAL / DUAL-ENTRY**

**Just push your foot in through the back and step down on the heel pedal to flip up the highback. That's it – you're ready to shred. A simple release lever makes exiting just as rapid. Supermatic® feels just like a classic two-strap binding to ride, and you can even operate the ratchets normally if the conditions demand it. Steep slope? Deep pow? No problem.**

## **AUTOMATIC**

**With Supermatic®, you can start riding right off the chairlift. No more fiddling with buckles – just drop your boot in and go.**

## **UNIVERSAL**

**Supermatic® works with any boot from any brand – so you don't need to compromise on fit or buy a whole new boot/binding setup.**

## **DUAL-ENTRY**

**Conventional Ankle and Toe Straps to easily enter and exit the binding if needed and you get that familiar two strap ride and feel.**

**HEEL ROLLER**

**AUTO HIGHBACK & AUTO STRAPS**

**HEEL PEDAL**

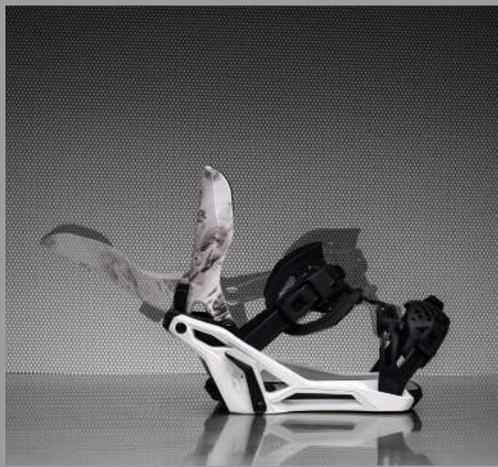

**SLIP PLATE**

**RELEASE LEVER**

# SUPERMATIC® TECHNOLOGY

## • AUTO HIGHBACK & STRAPS

WHEN ACTIVATED THE HIGHBACK FLIPS UP AND THE STRAPS AUTOMATICALLY CLOSE LIKE MAGIC.

## • HEEL PEDAL

JUST INSERT FOOT AND STEP ON HEEL PEDAL TO ACTIVATE HIGHBACK AND STRAP CLOSURE

## • HEEL ROLLER

ENSURES YOUR BOOT EASILY SLIDES IN AND OUT CATCH FREE WITH NO FRICTION.

## • SLIP PLATE

THE SLIP PLATE CREATES A SMOOTH SURFACE FOR YOUR BOOT TO SLIDE ACROSS DURING ENTRY AND EXIT. EXTRA LARGE UHMW PANEL SHEDS SNOW.

## • RELEASE LEVER

SIMPLY PRESS AND HOLD RELEASE LEVER TO LIFT BOOT UP AND OUT TO EXIT BINDING.

## • LSR 2.0 BUCKLE

SECOND GENERATION SLAP RATCHET AUTOMATICALLY LOCKS THE BUCKLE IN PLACE IN BOTH DIRECTIONS AS SOON AS YOU STOP RATCHETING. NO NEED TO MANUALLY LOCK. INSTANTLY DIAL IN YOUR PREFERRED STRAP TENSION (FOR USE WITH SPEED ENTRY) OR MAKE QUICK ADJUSTMENTS ON THE FLY.

## STRAP & DISK TECHNOLOGY

### • DUAL BAND AUTO STRAP

TWO BANDS WITH DIFFERENT FLEX AND POWER PROPERTIES FUSE FOR MAXIMUM COMFORT AND RESPONSE.

### • FLIP FIT TOE STRAP

TOE STRAP CAN BE FLIPPED TO CUSTOMIZE FIT ON YOUR BOOTS. LEAVE IN STOCK POSITION FOR MOST BOOTS OR FLIP LONG SIDE DOWN FOR BOOTS THAT ARE IN THE LARGEST EDGE OF FIT RANGE.

### • OFF-SET MULTI DISK

THE OFFSET MULTI-DISK CAN BE MOUNTED ON 4X4, 4X2, AND THE M6 CHANNEL - WITHOUT THE NEED FOR AN ACCESSORY CHANNEL-DISK. THE HOLE PATTERNS ARE OFFSET FROM THE CENTER FOR MORE TOE-HEEL OR STANCE-WIDTH ADJUSTABILITY. INSERT YOUR AIR TAG INTO THE SNAP-FIT POCKET TO TRACK YOUR BOARD WHEN TRAVELING.

- 4X4, 4X2, M6 CHANNEL COMPATIBLE
- AIR TAG SNAP-FIT POCKET

# **X BENT METAL BINDING WORKS EXCLUSIVE TECHNOLOGY**

## **• BMBW REVOLUTIONARY CUBE**

SIMPLY SPIN CUBE FOR THE DESIRED FORWARD LEAN ANGLE. IT'S FOOL PROOF. EASILY ADJUST ON THE HILL. URETHANE CONSTRUCTION ABSORBS SHOCK AND VIBRATION. VISUAL INDICATORS LET YOU KNOW ANGLE SELECTED. IN 3° INCREMENTS FROM 10°-19°.

- FASTEST AND EASIEST FORWARD LEAN ADJUSTMENT.
- URETHANE DAMPENING.

## **• BMBW SOLID POWER HIGHBACK**

SOLID HIGHBACK DESIGN DIRECTS POWER FOR 100% CONTROL. ASYMMETRIC SHAPE PROVIDES ERGONOMIC SUPPORT FOR COMFORT AND DRIVE.

- SEAMLESS POWER TRANSFER

## **• BMBW SLIP PLATE**

THE EXTRA-LARGE SLIP PLATE, FEATURING ICONIC GRAPHICS, SETS ITSELF APART WITH A UNIQUE STYLE, AS SEEN ACROSS ALL BMBW BINDINGS.

## **• BMBW CANTED FOOTBED & HEEL SHOCK PAD**

CANTED 3° FOOTBED PADDING CENTERS RIDERS BALANCE WHILE INCREASING DRIVE AND POP. HEEL SHOCK PAD PROVIDES EXTRA ABSORPTION FROM HARD LANDINGS.

- INCREASED STABILITY AND POWER TRANSFER
- INCREASED HEEL SHOCK ABSORPTION
