26/27 DREAM BOARDS

pr: Travis Rice by Tim Zimmerman

MATTEO SOLTANE

MERVIN  MADE
USA • ZERO HAZARDOUS WASTE

Nov 24, 2025 11

DREAMIN BIG... For 26/27 our apex fish Travis Rice dove deeper into environmentally friendly materials and high performance shapes with his newly reshaped Orca II and the Golden Orca incorporating Ocean Bound upcycled top material and sustainably managed Western Hemlock wood cores harvested by the Makah tribe 70 miles from the factory. The Dough Boy returns in a 10cm shorter high

performance incarnation. Matt Biolos updated his Rocket to be even more pow friendly and he and Sweetin added sizes to the Sweetfish. Kaitie Kennedy worked with her friend Des and teamed up to create the most beautiful Two Time ever... Keep clicking through the digi cat to see more Lib experiMENTA Team dreams... from E Jack, Sweetin, Jamie Lynn and more.

LOCALLY HARVESTED HIGH PERFORMANCE CORE WOOD!

We are excited to work with our Native American neighbors and the original stewards of the land on an exciting new project that brings sustainable business to the tribe and incredible material to our snowboards.

MAKAH SAWMILL

Where every plank tells a story of responsible stewardship

MAKAH WESTERN HEMLOCK

- LOCAL: HARVESTED IN BEAUTIFUL NEAH BAY 70 MILES FROM MILL TO MERVIN CORE SHOP
- SUSTAINABLE HARVESTING FORESTS RESPONSIBLY MANAGED BY THE TRIBE
- SELF REPLANTING HEMLOCK GROWS BACK NATURALLY WHEN YOU CUT IT
- INCREDIBLE INSERT RETENTION STRENGTH, HARDNESS, GREAT FEEL AND RIDE.

OCEAN BOUND

TOP SHEET MATERIAL

New recycled/upcycled top material exclusively on the Orca and Golden Orca...Ocean Bound project is focused on creatively using discarded one time use plastics in danger of ending up in our waterways and ocean for the purposes of good. Amazing top material / cleaner environment for all of us on the planet including our friends the Orca.

- Certified Upcycled and Recycled PET obtained 30 miles / 50k near water ways or oceans.
- Keeps plastic out of our waterways and creates new product that is to our specs, incredibly tough and ideal for use on snowboard tops.

- We eco sublimate using our unique water based printing system that produces vibrant colors.
- New material specifications .01 thinner reduces board weight.
